who was new at the business and unse-customed to rows of that sort, was much mortified at the turn things had taken, followed the spectacled tempest to the rear of the boat, where he found her emptying her o'erburdened heart and mind into the bosom of the weeping chambermaid. "Madam," said he, in tones that, would have making a heart of cassions." mately mately that would have melicular bears on cast-iron, "please return to the table and quietly place your self on the outside of a few more pounds of perk and another peck or two of beans —please, now, do, fer my sake." But she was inexorable, and almost as good as swore that she would never touch pork or hears on that host argun. Nor did she

nan named Edward Williams shot and his son James, a youth of about seven in Sevannas, Ga., on Monday last, mislain for a songiar.

Washington paper gives us the names of the parties who went to one of these "re-unions" of hers last Saturday night, but the names of none of the colored aristocracy of the city are to be found among them. We are told that Hon. GINER TWITCHELL and lady were there, that Hon. Mr. B.AC. PAN and daughters were there, and that Mr. J. SAYLES BROWN, the Hon. Mr. J. Sm.rn and Gen. Ballacn, of the Freedman's Bureau, were there, to gether with others whose names like these are household words wherever the these are household words wherever the English tongue is speken; but in all this brilliant array of great historic names we behold not that of the Hon HUMAN R. REVELS and lady was in the that they have no taste for "literary reunions," and are, therefore, absent from these through choice, and not for want of an invitation to go?

But we have wandered somewhat from two chiefs, having mercely intended as the

our object, having merely intended at the outset to refer to the almost total absence outset to rect: size aims.

of white "loyalty" in the procession yesterday, and to inquire of the procession itself if the Freedemen's Bureau furnishes any rational grounds upon which an explanation of such a phenomenon can be based.

Immigration. From the Journal of the House, March

11, we quote:

"According to order the House took up,
for further consideration, a bill entitled A
bill to establish a Bureau of Immigration "Mr. SELVEPTONE moved to lay sale bill on the table. The year and nays be ing required thereon by Messrs. Bownes and Davidson, were as follows, viz."

H. H. Sriles, R. M. Spaiding, W. J. Woob—36. We publish the above for the purpose of allowing the people of the State to know how the members voted. The question has not been agitated prior to an election,

fature. We take the market life. When you shall be not entered that county has been one of the most prosperious in the State. It agricultural products have been a source of weath. But hey is if mov? We had complaint after complaints from the farmers of Statisty, that lakes is no precarious that they propose to sow down their rich farms in grass. Suppose this is done to a considerable extent, and a rich county like that converted falso a meason, and then another and another county follows the example. How long will it be before Kentucky goes into a decadence, which will cause the active, the energetic, and the predent youth to leave it, and to cast his ioritmes in some State which sylnors progress and Spesigh? We sak our neighbors in Spelby to discuss this with their Representative, and let him know whether they preser to have skilled labor ready at hand to make their rich acres teen with crops, har beyond what they ever raised

The Mitthetreet Friedyterian absents of origination and small a minimum soil upon proving the law make a minimum soil upon proving the make a training soil upon proving the many soil and a proving the many soil and the soil and

was over and the celebration was at an end.

Such, though, is the way these things are done everywhere. Radicalism wants the negro's vote, and intends to pay nothing more for it than is absolutely necessary. The members of the party are all pretty much like a certain "literary lady" in Washington, who is very proud of an incident in her lits which have an everything was considered in regard to its strengthening that measure, by its friends while seated at dinner one day she found that a negro passenger had been denied the privilege of dining with the white people. Whereupon she left the table in a fearful rage, declaring that, as she was no better than the colored greateman, she would not cest another mouthful unlers he was permitted to come to the table. The Captain, who was new at the business and unsecustored to rows of that sort, was much mortified at the turn things had taken. immigration, and that we supported the scheme for the longid of the State. It can do Louisville no service, except that, as the commercial metropolis of the State, the prosperity of the country interests must anturally increase ours, by adding ulti-mately to our trade. But we, as a railroad center, can always supply ourselves with any needed quantity of labor. And we hope, at the next section, that our friends who differed with us upon that Cincinnati

beans on that boat again. Nor did she.
As she hadn's yet paid her fare, and was already half way to her journey's end, she went ashore at the very next landing, clearing two dollars and a half in gold by her heroic stand in detense of a downtrodden rece.

They are the same heroine, who has of the state, which can send for labor and derignate beforehand where the immigrant must come to. An intelligent Englishman, who has had supervision of thousands of a situation, and does not know where to be unably capital, who could use his experience and science to advantage, may be unable to meet the right person, and may go away from the State discouraged and discouraging others from making similar adventures. It is absclutely necessary, in building a house, that firm foundations should be laid. So in immigration it is essential that the sound beets should be formed of as ociations in the State to provide homes to: the immigrants and not to vide homes for the l'amigrants, and not to let there wander from point to point seek-ing situations. Systematized, there is not a doubt of its success. But no agent of a doubt of its success. But no agent of the State, who has any self-respect, would ever invite workingmen of limited me...in to come to a country of such broad ex-panse unless arrangements were made in advance for their accommodation. There is a demand for good labor all over the State, but it must be made known where State, but it must be made known when the supply is needed, and it is a feature which must be grafted into any future leg-

lalation or serious inconveniences and mis-fortunes must result to the laborers who seek new homes among us. One Exception.

Where were all the special triends of the negro yesterday, who have heralded far and wide their devotion to principle?

If it was such an era in the history of the matton, why did the sell-is Radicals stand back yesterday, instead of signalizing back yesterday, instead of signalizing their devotion to principle, by marching in serried ranks, with banners flying and music playing? And yet they all held back and did not show their white faces amid the dusky shades of every hue which thronged the streets. Only one Federal official had the manliness to prove that his professions had been true. Only one of Gideon's band turned out and showed himself as honest as people have given him credit for. At the head of the procession JOHN C. NAUTS marched, with a bearing

of independence which evinced his de-termination to avow his erced. Congress is to furnish Captain C. F. Hall, of Cincinnati, a steamship and tender, and a hundred thousand dollars in cash, for a pleasure excursion to the Arctic cash, for a pleasure excursion to the Arctic regions. And now, the next thing you know, Capt. John Shirih will come along and ask for a steamship and tender and a hundred thousand dollars for a pleasure excursion to Europe. Hart says he is go-ing in the interest of science, but fixtra will find more science in Europe in a week than Hart can find at the North pole in a life time.

The New York Herald speaks of certain "broad, statesmanlike, and patriotic views of the President." And it does it so seriously, too, that if you didn't know the thing is a joke, you couldn't tell for the life of you what the Herald is driving at. A New York paper nominates Honace Greeker for Governor. Thus we have another effort of the anti-agriculturists of the State to choke Mr. GREEKEY off before he gets done telling what he

Jah 64m Factory Son. \$51 6 265 Lorgan of

There is no such medicine for the diseases for which it is recommended as Edward Wilder's Stemech Bitters. It is positively esserted that they are altogether unequaled. They are absolutely infulfible, if used uccord, ing to directions, in Dyspopsis, Indirection, Intermittent Forer, Laver Complaint, Colles, and Finz. They are at once. They are suitently as altegative. They are an emperior to all cotter medicines as an appetiner. They inviger for the endeedled shomesh, past review the outgrought system. They add near posser, to the weakened heart, and sustain the overtaxed brain. Builds being superior to, they are unifferall other Bitters, in having for their base pure coppie distilled Bourbon which, This fact alone has given them a character in the city where they are made, and muit commerced them to the lovers of the good and the genuine overywhere. To the surious mother weighed down with family cares, to the merchant exhausted by the harass of business, to the dyspetic, to him who suffers from constitution, to the victim of flux or colle or debility, these Bitters offer apecty and neveralling relief. Try them. If you take them once, you will never after be without them in your house.

By a process recently discovered, I have been able to obtain from the bank of the Wild Cherry (technically the Franss Virginiani) an extract which has been processed by the Pharmaceutical Society of London and Berlin to possess mere of the virians of this invaluable tree than any other over presented to them. One shull tenspoonhal of Rieward Wilder's Compound Extract of Wild Cherry contains more of the active principle of the Wild Cherry than any other preparation contains in a wins-glass full. To this extract is added other ingredients derived from the vegetable kingdom, which give as efficiency, activity, and power to this remody which justify estitle it to be called the Destroyer of Coughs, Colds Catarrhs, Larangitis, Assima, Infinensa, and-Croops. Not one of these lifections can withstand it. They yield instantly to its insagic power. Besides these diseases, it is invaluable in Frameous and Fleeriey. In Bronchitis, scatte and chronic, it is unfailing, and in the cough of Consumption it affords a reflect which no other remody is capable of delig. In its composition are summed up all the ingredients necessary to effect a permanent cure, which in every case is warranted if wed according to directions.

ave you for years been suffering with Ague Fever or Chills and Fever, waich so rack the system? If so, go at once and get a bottle of Edward Wilder's Chill Tonic, as it is boidly asserted that, in its line, and for the

with it.

It is a certain, a speedy, a permanent cure
for every disease arising from missma or malaria. No form of Intermittient or Remittent
Fever can realist it. Quoidian, Tertian, Quartian, and Twenty-one day Chilis are obliged to
yield to it. It is the conqueror of every ape
cies of Marsh or Swamp Fever. It is the
